Clarification Note:

Pay special attention in the schedules below for the different type of courses:

- "T" – Theoretical – represented by the blue blocks
- "P" – Practical – white blocks

For example: if you choose section 1 (S1) in Mathematics II you will have theoretical classes on Mondays and Wednesdays and practical classes on Thursdays and Fridays.

This implies that when you choose S1 you will have to attend all mandatory 4 classes.

- Other courses will be represented by blue blocks only with the Section designation "S". This means that this course's session is not divided in theoretical and practical.

The numbers (here in red) represent the classrooms. This information will be available soon.
